PRESS RELEASE
November 2018

équi-ressources launches its website in English

In 2017 equi-ressources posted 107 job offers abroad on www.equiressources.fr. 70% of these posts are now filled thanks to our service. Due to these results, we now must develop internationally.

Since its creation in 2007, Equi ressources has kept evolving and improving its service.

The equine industry is becoming increasingly more international, in racing, breeding and in sport.

We need to adapt to this new trend, in order to offer our clients a better service.

This is why we have decided to create a platform in English.

Foreign employers and job seekers can now create an account on www.equiressources.fr and post vacancies and apply for jobs in English.

Have a look at the new English version of our website :
